

# APPLIED ERGONOMICS

Index to volume 23 (1992), nos 1–6, pages 1–440

## Articles

- A multi-level incentive model for service organizations *Shell R L and Allgeier R G* 43
- A review and reappraisal of electronic performance monitoring, performance standards and stress allowances *Schleifer L M and Shell R L* 49
- A review of physical exercises recommended for VDT operators *Lee K, Swanson N, Sauter S, Wickstrom R, Waikar A and Mangum M* 387
- A simple method for hardware and software evaluation *Mitchell N B* 277
- An evaluation of a weightlifting belt and back injury prevention training class for airline baggage handlers *Reddell C R, Congleton J J, Huchingson R D and Montgomery J F* 319
- An experimental comparison of text and symbols for in-car reconfigurable displays *Baber C and Wankling J* 255
- Anthropometry for a mix of different populations *Al-Haboubi M H* 191
- Application problems of a bio-mechanical model in improving roof-work *Vink P* 177
- Back pain in nurses: epidemiology and risk assessment *Pheasant S and Stubbs D* 226
- Causes of accidents with post-drivers and their remedies *Miller K* 101
- Chernobyl operators: criminals or victims? *Munipov V M* 337
- Cognitive ergonomics of a mail order filling company: Part 2 – Influence of shelf coding and address information on acquisition time *Bishu R R, Donohue B and Murphy P* 115
- Design and evaluation of an optical disk handling tool for a cleanroom environment *Vora P V, Reynolds J L and Corl K G* 414
- Effective vehicle width in self-paced tracking *DeFazio K, Wittman D and Drury C G* 382
- Electronic Performance Monitoring (EPM) *Schleifer L M* 4
- Electronic performance monitoring: A review of research issues *Lund J* 54
- Employee stress and health complaints in jobs with and without electronic performance monitoring *Smith M J, Carayon P, Sanders K J, Lim S-Y and LeGrande D* 17
- Ergonomics in Vietnam *Shahnavaz H* 133
- Estimation of heat stress in Tanzania by using ISO heat stress indices *Kähkönen E, Swai D, Dyauli E and Monyo R* 95
- Evaluating user interfaces in context: the ecological value of time-and-motion studies *Lindgaard G* 105
- Eye movement and pupillary response indices of mental workload during visual search of symbolic displays *Backs R W and Walrath L C* 243
- Finnish divers' view of occupational risks and risk taking *Honkasalo A* 202
- Human error identification in human reliability assessment. Part 1: Overview of approaches *Kirwan B* 299
- Human error identification in human reliability assessment. Part 2: Detailed comparison of techniques *Kirwan B* 371
- Improving the ergonomics of British Coal's mining machinery *Mason S* 233
- Measurement of trunk bending during work by direct observation and continuous measurement *Burdorf A, Derksen J, Naaktgeboren B and van Riel M* 263
- On the merits of ancient Chinese eye acupressure practices *Östberg O, Horie Y and Feng Y* 343
- Operator stress and monitoring practices *DiTecco D, Cwitco G, Arsenault A and André M* 29
- Performance on a prototype keyboard with ternary chorded keys *Kroemer K H E* 83
- Posture, performance and discomfort in pregnancy *Nicholls J A and Grieve D W* 128
- Predicting garment pattern dimensions from photographic and anthropometric data *Gazzuolo E, DeLong M, Lohr S, LaBat K and Bye E* 161
- Questionnaire development: an examination of the Nordic Musculoskeletal Questionnaire *Dickinson C E, Campion K, Foster A F, Newman S J, O'Rourke A M T and Thomas P G* 197
- Rapid prototyping and the human factors engineering process *Beevis D and St Denis G* 155
- Size and shape analysis techniques for design *Ratnaparkhi M V, Ratnaparkhi M M and Robinette K M* 181
- Stress, computer-based work monitoring and measurement systems: a conceptual overview *Amick B C III and Smith M J* 6
- Synthesized or digitized? A guide to the use of computer speech *Cowley C K and Jones D M* 172
- Technical characteristics of overhead cranes influencing the vibration exposure of the operators *Piette A and Malchaire J* 121
- The effect of appraisers in estimating metabolic rate with the Edholm scale *Kähkönen E, Nykyri E, Ilmarinen R, Ketola R, Lusa S, Nygård C-H and Suurnäkki T* 186

## ERGONOMICS IN DESIGN

## Call for Articles

The Human Factors Society invites submissions for a new publication, *Ergonomics in Design: The Magazine of Human Factors Applications*. The magazine focuses on the application of ergonomics research in all areas and will include articles describing the research, design, test, and manufacturing processes. Articles, case studies, commentaries, debates, and book and product reviews are invited. The magazine will appear quarterly beginning in January 1993 and is a benefit of membership in HFS.

Editor Daryle Jean Gardner-Bonneau welcomes submissions that are suitable for readers both working and interested in the field. Articles should be well founded in applied human factors/ergonomics design work or processes and should be written in less formal style than required for a journal. Prospective authors should provide valuable and accessible tools for use in the real-time practice of ergonomics and offer readers information they may need to document the value of ergonomics for individuals outside the field (e.g., clients and managers). Submissions are subject to peer review.

Submissions may be up to 16 double-spaced typed pages in length, depending on content (e.g., full article, brief note). Authors are encouraged to include graphic elements such as photographs, illustrations, tables, and figures. Electronic submissions are welcome in either PC-compatible or Macintosh format, provided (a) the diskette is accompanied by a hard copy of the submission and (b) the software used is clearly noted. Submit 4 copies with a cover letter and a one-paragraph biography for each coauthor.

For information about submitting a manuscript or obtaining a nonmember subscription, contact the Human Factors Society, P.O. Box 1369, Santa Monica, CA 90406-1369 USA; fax (310) 394-2410. Questions about content may be directed to *Ergonomics in Design* Editor Daryle Jean Gardner-Bonneau, CTA, Inc., 2500 English Creek Ave., Suite 1000, McKee City, NJ 08232 USA; fax (609) 646-4508.
